## A message from Bishop Francis.

I have written a Pastoral Message entitled "Life is both sacred, and a human right". In this message my theme is that once human life begins it should be allowed to continue until its natural end. The perspective I come from is both a human and a faith one. Because this is a sensitive matter, and out of consideration for people who find this a difficult topic, I have asked our priests to leave copies available at the church doors.

With every best wish and blessing. (Francis Duffy)
