## Online Safety Tips (From Diocesan Safeguarding Committee)

- Learn how apps work. Smartphone Apps have features that may prove a challenge to the safety of young people. Some apps even allow the user to hide other apps.
- Discuss with children the risks of sharing personal information, images or videos via social media and of accepting ‘friends’ requests from people they do not really know. Some people may not be who they say they are.
- All users of social media are advised to take measures to protect their identity using 2step verification. Free online safety tips are available by registering on [www.waynedenner.com](http://www.waynedenner.com).
